

## **Qualified surgical/implant dental nurse**

We are looking for a full time **experienced surgical / implant dental nurse** to join our busy private practice in Pangbourne, Berks.

Primary duties will include assisting our specialist prosthodontist with implant surgery alongside our current team. Previous experience nursing in a specialist and surgical environment is essential as you will also be required to work with our endodontist and periodontist, as well as our general dentists.

The ideal candidate will need to be organised, efficient and willing to mentor other junior and trainee nurses. We are looking for someone with a passion for dentistry, a willingness to embrace innovative techniques and new ideas and with a desire to further their own skills and qualifications.

Knowledge of Exact software would also be an advantage. Excellent customer service and patient care skills are essential.

Working hours are 39 hours per week Monday to Friday and Saturdays on a rota basis. Time off in lieu is given when working a Saturday.

Salary will depend on qualifications and experience.
